DETAILED ACTION

Receipt is acknowledged of the Preliminary Amendment A, and the Information Disclosure Statement, received by the Office on February 8, 2001 and April 30, 2001, respectively.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 11, and 12-20 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 97/02020 to Dietrich *et al.*. Dietrich *et al.* disclose an oral pharmaceutical composition of pantoprazole in pellet or tablet form, wherein the drug is at least partly in slow release form, and is administered in combination with an antimicrobial active (abstract). Additionally, Dietrich *et al.* teach that the tablet core is coated (claim 7). Furthermore, Dietrich *et al.* teaches that the coating can be a methacrylate copolymer (claim 11). Dietrich *et al.* also teach that traditional excipients can be included, include cross linked polyvinyl pyrrolidone as a disintegrant (p 8, last line). This disclosure anticipates the above listed claims.

Claims 1, 2, 4-7, 11, 12, 14-17 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 4,786,505 to Lovgren *et al.*. Lovgren *et al.* disclose an oral pharmaceutical preparation comprising a core containing omeprazole, and a coating layer (claim

Art Unit: 1615

1). Further, Lovgren *et al.* teach that the coating can be a co-polymerized methacrylic acid/methacrylic acid methyl ester (claim 8). Additionally, examples 9 and 10 show that crospovidone is included in the tablet core. This disclosure anticipates the limitations of the above listed claims.
